ADDENDUM TO PUBLICATION AGREEMENT

1. This Addendum modifies and supplements the attached publication agreement (the "Publication Agreement") concerning the article titled "Lance: Optimizing High-Resolution Signal Collection in Wireless Sensor Networks" (including any supplementary materials, the "Article") in Proceedings of the Sixth ACM Conference on Embedded Networked Sensor Systems (Sensys'08).
2. The parties to the Publication Agreement as modified and supplemented by this Addendum are: Geoffrey Werner-Allen (corresponding author) and Stephen Dawson-Haggerty and Matt Welsh (individually or, if more than one author, collectively, "Author") and Sheridan Printing ("Publisher").
3. The parties agree that wherever there is any conflict between this Addendum and the Publication Agreement, the provisions of this Addendum will control and the Publication Agreement will be construed accordingly.
4. Notwithstanding any terms in the Publication Agreement to the contrary, Author and Publisher agree as follows:
 - a. All of the terms and conditions of the Publication Agreement, including but not limited to all grants, agreements, representations and warranties, are subject to and qualified by a non-exclusive license previously granted by Author to Harvard University. Under that license, Harvard may make the Article available and may exercise all rights under copyright relating to the Article, and may authorize others to do the same, provided that the Article is not sold for a profit.
 - b. Where applicable, all of the terms and conditions of the Publication Agreement, including but not limited to all grants, agreements, representations and warranties, are subject to and qualified by any non-exclusive license previously granted, or previously required to be granted, by Author to a funding entity that financially supported the research reflected in the Article as part of an agreement between Author or Author's employing institution and such funding entity, such as an agency of the United States government, and/or to Author's employing institution.
 - c. Nothing in the Publication Agreement will impose any limitation on the rights and licenses referred to in the paragraphs above or any obligation in connection with their exercise. Neither the existence nor the exercise of those rights and licenses will be deemed to violate any representation or warranty or breach the Publication Agreement.
5. Either publication of the Article or Publisher's signature below will constitute Publisher's acceptance of and agreement to this Addendum.
